About White Gold Corp.

The Company owns a portfolio of 15,364 quartz claims across 19 properties covering 303,001 hectares (3,030 km²) representing approximately 40% of the Yukon's emerging White Gold District. The Company's flagship White Gold Project hosts four near-surface gold deposits (Golden Saddle, Arc, VG and Ryan's Surprise). A Preliminary Economic Assessment ("PEA") on the White Gold Project outlines a 9.4-year, 12,000 tonne per day open pit operation producing an average of 188,000 ounces of gold per year (223,000 ounces per year over the first five years), with an after-tax NPV(5%) of C$1.86 billion, an after-tax IRR of 41% and a 1.5-year payback period at a base case gold price of US$3,600/oz (see the Company's news release dated September 25, 2026)[(5)(2)]. Regional exploration work has also produced several other new discoveries and prospective targets on the Company's claim packages which border sizable gold discoveries including the Coffee Project owned by Talamore Mining (formerly Fuerte Metals) with Measured and Indicated Resources of 80.2 Mt grading 1.15 g/t Au for 2.96 million ounces of gold, and Inferred Resources of 21.2 Mt grading 1.17 g/t Au for 0.80 million ounces of gold [(3)(2)], and Western Copper and Gold Corp.'s Casino Project which has Measured and Indicated Resources of 2,490.7 Mt grading 0.18 g/t Au, 0.14% Cu for 14.8 million ounces of gold and 7.6 billion pounds of copper, and Inferred Resources of 1,412.5 Mt grading 0.14 g/t Au, 0.10% Cu for 6.3 million ounces of gold and 3.1 billion pounds of copper [(4)(2)]. The Company is strategically supported by its major shareholder Agnico Eagle Mines Ltd.. For more information visit www.whitegoldcorp.ca.

PEA Cautionary Statement: The reader is advised that the PEA summarized in this news release is only a conceptual study of the potential viability of the White Gold Project, and the economic and technical viability of the White Gold Project and its estimated Mineral Resources has not been demonstrated. The PEA is preliminary in nature and provides only an initial, high-level review of the White Gold Project's potential and design options; there is no certainty that the PEA will be realized. The PEA conceptual mine plan and economic model include numerous assumptions and Mineral Resource estimates including Inferred Mineral Resource estimates. Inferred Mineral Resource estimates are considered to be too speculative geologically to have any economic considerations applied to such estimates. There is no guarantee that Inferred Mineral Resource estimates will be converted to Indicated or Measured Mineral Resources, or that Indicated or Measured Mineral Resources can be converted to Mineral Reserves. Mineral Resources that are not Mineral Reserves do not have demonstrated economic viability, and as such there is no guarantee the White Gold Project economics described herein will be achieved.

Cautionary Note Regarding Forward Looking Information

This news release contains "forward-looking information" and "forward-looking statements" (collectively, "forward-looking statements") within the meaning of the applicable Canadian securities legislation. All statements, other than statements of historical fact, are forward-looking statements and are based on expectations, estimates and projections as at the date of this news release. Any statement that involves discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, assumptions, future events or performance (often but not always using phrases such as "expects", or "does not expect", "is expected", "anticipates" or "does not anticipate", "plans", "proposed", "budget", "scheduled", "forecasts", "estimates", "believes" or "intends" or variations of such words and phrases or stating that certain actions, events or results "may" or "could", "would", "might" or "will" be taken to occur or be achieved) are not statements of historical fact and may be forward-looking statements. In this news release, forward-looking statements relate, among other things, the Company's objectives, goals and exploration activities conducted and proposed to be conducted at the Company's properties; future growth potential of the Company, including whether any proposed exploration programs at any of the Company's properties will be successful; exploration results; and future exploration plans and costs and financing availability.

These forward-looking statements are based on reasonable assumptions and estimates of management of the Company at the time such statements were made. Actual future results may differ materially as

forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to materially differ from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors, among other things, include:

The expected benefits to the Company relating to the exploration conducted and proposed to be conducted at the White Gold properties; failure to identify any additional mineral resources or significant mineralization; the preliminary nature of metallurgical test results; uncertainties relating to the availability and costs of financing needed in the future, including to fund any exploration programs on the Company's properties; business integration risks; fluctuations in general macroeconomic conditions; fluctuations in securities markets; fluctuations in spot and forward prices of gold, silver, base metals or certain other commodities; fluctuations in currency markets (such as the Canadian dollar to United States dollar exchange rate); change in national and local government, legislation, taxation, controls, regulations and political or economic developments; risks and hazards associated with the business of mineral exploration, development and mining (including environmental hazards, industrial accidents, unusual or unexpected formations pressures, cave-ins and flooding); inability to obtain adequate insurance to cover risks and hazards; the presence of laws and regulations that may impose restrictions on mining and mineral exploration; employee relations; relationships with and claims by local communities and indigenous populations; availability of increasing costs associated with mining inputs and labour; the speculative nature of mineral exploration and development (including the risks of obtaining necessary licenses, permits and approvals from government authorities); the unlikelihood that properties that are explored are ultimately developed into producing mines; geological factors; actual results of current and future exploration; changes in project parameters as plans continue to be evaluated; soil sampling results being preliminary in nature and are not conclusive evidence of the likelihood of a mineral deposit; title to properties; and those factors described under the heading "Risks Factors" in the Company's annual information form dated July 29, 2020 available on SEDAR+. Although the forward-looking statements contained in this news release are based upon what management of the Company believes, or believed at the time, to be reasonable assumptions, the Company cannot assure shareholders that actual results will be consistent with such forward-looking statements, as there may be other factors that cause results not to be as anticipated, estimated or intended. Accordingly, readers should not place undue reliance on forward-looking statements and information. There can be no assurance that forward-looking information, or the material factors or assumptions used to develop such forward-looking information, will prove to be accurate. The Company does not undertake to release publicly any revisions for updating any voluntary forward-looking statements, except as required by applicable securities law.

Neither the TSXV nor its Regulation Services Provider (as that term is defined in the policies of the TSXV) accepts responsibility for the adequacy or accuracy of this news release.
